Welcome to Manchester

UGM Manchester, a partner of the University of Greater Manchester, offers a range of undergraduate degrees from its city-centre campus in Manchester's education hub. Sharing the same ethos, we focus on a teaching-intensive, research-informed approach, with student success at the heart of everything we do.

We are committed to fostering students' potential through high-quality academics guaranteed to propel careers and ambitions.

We have created an environment which is designed to enable students to excel and achieve their career goals with tutors that are well-qualified and committed to academic success. UGM Manchester prides itself on developing intelligent, diverse and forward-thinking students regardless of what degree they choose to undertake.

Our unique degree curriculums have been designed carefully to provide students with programmes that are contemporary, stimulating, and employment focused.

The syllabus caters to mastering both academic knowledge and practical tools for a successful career. Our focus on employability throughout our degrees is demonstrated by our excellent employability scheme, with workshops aimed to upskill students into their future careers.

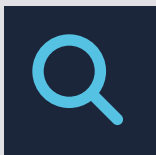

"With a campus in the heart of Manchester offering you unprecedented access to a host of potential employers and career opportunities, UGM Manchester is the perfect place for you to build the skills and gain the knowledge which will propel you to a successful career. Our commitment and focus on academic quality, delivered by our experienced academics, will ensure you enjoy an excellent learning experience."

Andrew Johnson - Dean at UGM Manchester

Location

Our campus, just off Oxford Road, opened in the summer of 2023 and contains contemporary state-of-the-art facilities. The site is situated in a prime location within the student hub in Manchester city centre, with a variety of shops, cafes and learning spaces in the area.

Students will have the opportunity to explore this exciting city in their spare time and experience all the culture embedded in this diverse and evergrowing centre of the North-West.

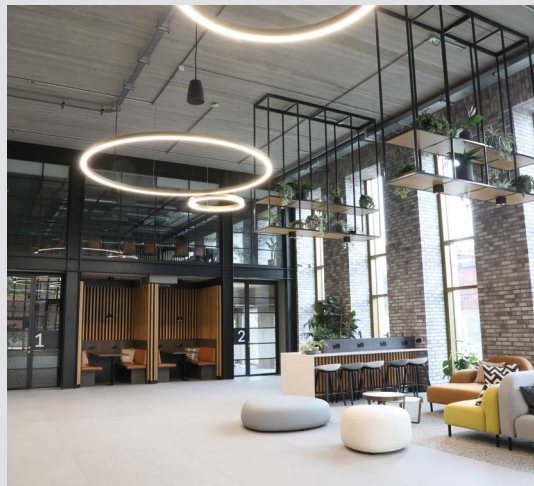

You can find everything you need on campus:

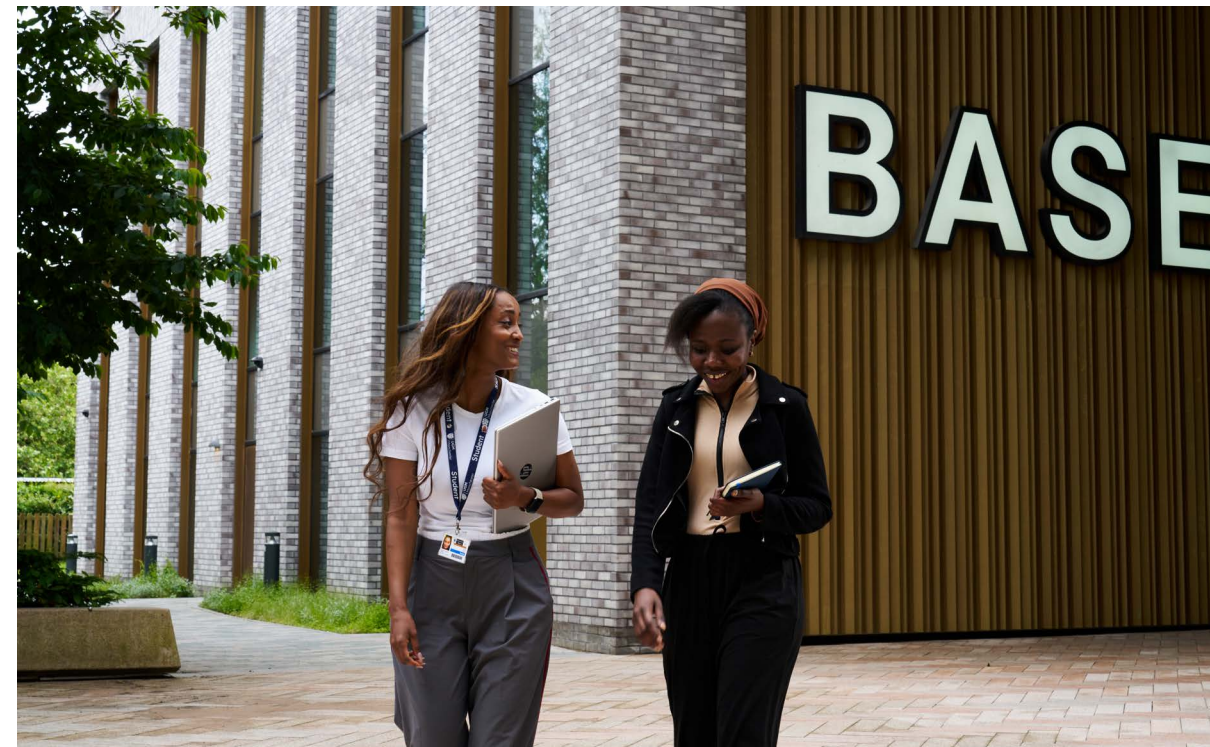

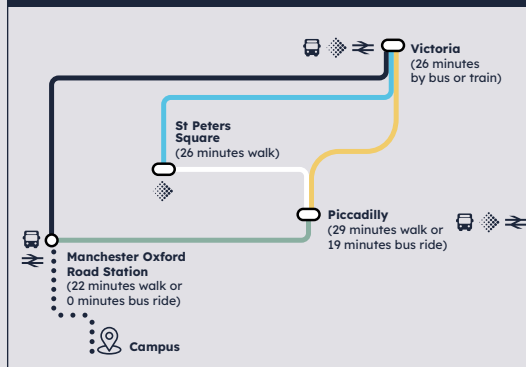

- 17 classrooms
- Student breakout areas
- State-of-the-art lecture theatres and seminar rooms
- Study booths and pods, perfect for personal study
- Library
- Dedicated lunch spots
- Wellbeing service
- A multi-faith room
- On-site cafe

Our campus

Our campus is located in BASE, a sustainably orientated building, that is part of the Manchester Science Park Community. The building includes environmentally-friendly features, including a Net Zero Carbon measure across communal areas. Students have access to the Bright building next-door. A secure location, the Bright building includes a large shared informal breakout space, outdoor garden, an on-site cafe and pub, and 100 GB ultra-fast broadband connectivity.

Study at the heart of the city's student population and city centre

Welcome to Manchester

Manchester has grown exponentially within the last decade and has earned its title as an economic epicentre both within the UK and internationally. In terms of culture, the city thrives with global reputations for music, hospitality and sport to name but a few. The city has a rich history for students to explore, with many museums, art galleries and seasonal events to cater to a wide variety of interests.

Central and connected

One of the city's main train stations, Oxford Road, is approximately a 15-minute walk from campus. Manchester Piccadilly, the city's primary train station, is also easily accessible via a short bus journey or a 25-minute walk. The nearest tram stop is around a 15-minute walk away, making the campus well connected and convenient for students.

Programmes

At UGM Manchester, we offer a range of undergraduate degrees ensuring students graduate with a high-quality education and the skills needed to reach their full potential.

Our supportive learning environment and industry-focused approach prepare students for success in their chosen careers.

For more information on our courses, please visit: manchester.ugm.ac.uk/our-courses

"Here at UGM Manchester, the student experience is at the heart of everything we do. We combine quality teaching from professionally experienced academics with the forward-thinking and innovative approach of a modern university. Our students need to have enthusiasm, curiosity and commitment to pursue higher-level education but UGM Manchester is there to support them at every step in their educational journey. We welcome applications from students of all ages, nationalities and backgrounds."

Lindsay Steele - Academic Registrar

Standard Timetable: Two weekdays within Monday to Friday

Morning Lecture (AM) 10:00 - 13:00	Lunch Break 13:00 - 14:00	Afternoon Lecture (PM) 14:00 - 17:00
--	------------------------------	--

Evening and Weekend Timetable Tuesday & Thursday evenings, and all day Saturday

Saturday Morning Lecture (AM) 10:00 - 13:00	Lunch Break 13:00 - 14:00	Tuesday & Thursday Evening Lecture (EV) 18:00 - 21:00
		Saturday Afternoon Lecture (PM) 14:00 - 17:00

We endeavour to keep your study days consistent. However, although your study days will remain the same week-on-week for the duration of a full trimester, they may change from trimester-to-trimester, dependent on staffing and rooming factors. If your study days change from one trimester to another, you will be informed well in advance.

About us

We empower ambitious, forward-thinking students to achieve their full potential. Located in the heart of Manchester city centre, our campus offers an inspiring environment where students build confidence, engage academically, and prepare for their future. Our contemporary, employment-focused courses combine academic rigour with practical, real-world skills to support long-term career success.

All Student Learning is supported by:

- Virtual Learning Environment (VLE) – Access course materials, assessments, and online learning tools
- Digital Library – Online academic resources, journals, and study materials available anytime
- Programme Support Services – Guidance and support throughout your course of study
- Dedicated Wellbeing Team – Support for mental health, wellbeing, and student welfare
- Employability Service – Career guidance, CV support, and employability skills development
- iCentre – Central support hub for general enquiries and student services
- Learning Resources – Study skills support to enhance academic performance
- Academic Support – Help with assessments, writing, and academic development
- Finance Support – Advice on fees, payments, and financial queries

An experience tailored to you

Scholarships

Once students have successfully finished their first year of study at UGM Manchester, top achievers may be eligible for a scholarship of **£2,000** to be taken off the following academic year's tuition fees.

Find out more about UGM Manchester's financial support at manchester.ugm.ac.uk/student-life/finance/student-support.

Student Support Bursary

The Student Support Bursary has been designed to help you cover the costs of studying at university in the city each semester. Eligible students can receive a payment of **£250** for each semester, with the opportunity of receiving up to **£500** per academic year. To see the full range of scholarships available, visit our website.

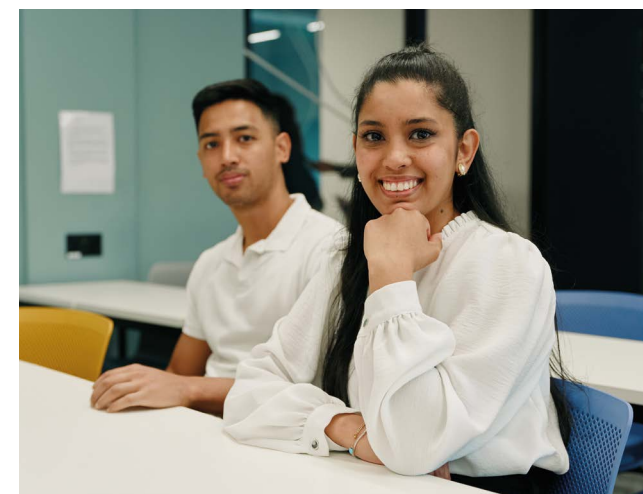

£500 bursary available per Academic Year

Learning Structure

You will be required to attend classes on campus for two days each week. Our university places great importance on providing a first-class learning experience for our students. To achieve this, we strongly believe in the value of face-to-face teaching and fostering interactions within a classroom setting.

We also offer an alternative evening and weekend study mode for selected courses at undergraduate level. This delivery mode can be ideal if the standard day timetable doesn't work for you.

About this course

The BSc (Hons) in Finance and Accounting offered by UGM Manchester provides excellent exposure to the principles and practices of accounting and finance. It offers a strong foundation for a career, regardless of whether you choose to become a professional accountant, work in financial services or build a career in auditing. You can develop high-level technical knowledge and conceptual understanding of accounting and finance in business contexts while experiencing life in the multicultural heart of Manchester.

If you wish to pursue a specialist accounting interest and relate the course syllabus to professional body (ACCA) requirements, this course will support your ambition. Our expert team will guide you in developing core knowledge in critical areas such as financial auditing, reporting, and taxation. You'll also explore wider concepts for business management, including business economics, planning, strategy and performance.

Modules

Foundation Year

- Data skills
- Research skills
- Communication skills
- Professional development skills

Year One

- Academic and professional skills
- Business planning

About this course

The health and social care sector plays a critical role in maintaining the physical and mental health of the public. In the UK, the National Health Service is embedded deeply in British society, providing support to residents since 1948. By studying your BSc (Hons) Health and Social Care degree with UGM Manchester, you can develop essential knowledge and understanding of health and social care principles and practices while experiencing life in the multicultural heart of Manchester.

Our experienced team will support you in developing core knowledge in critical health and social care areas, emphasising the social, political, ethical, and global contexts in which the industry operates. We'll explore how health and social care providers are managed, regulated and integrated to meet the needs of the population they serve. We'll also examine the biological, psychological, and sociological factors of human development and analyse their influence on health and wellbeing.

The degree is expertly structured to combine academic, practical and employability skills development so you graduate with the confidence to navigate the professional health and social care landscape.

Modules

Foundation Year

- Introduction to research and writing
- Introduction to the health and social care sector
- Data skills
- Professional development in the health and social care sector

Year One

- Academic and professional skills
- Fundamentals of human anatomy and physiology
- The health and social care profession
- Working safely in health and social care environments

Year Two

- Lifespan development
- Safeguarding in practice
- Promoting health and wellbeing
- Significant life events and resilience

Year Three

- Inequalities and social justice
- Leadership and change management in health and social care
- Undergraduate major project (health and social care context)
- Comparative healthcare systems

Career routes

- Care home manager
- Community development worker
- Healthcare manager
- Assistant practitioner e.g. occupational therapy assistant
- Psychological wellbeing practitioner
- Primary care graduate mental health worker
- Health promotion specialist
- Progression to PG Study to access further careers: e.g. nursing, public health, social work, teaching

Our BSc (Hons) Psychology degree will equip you with the scientific knowledge, practical research skills, and professional understanding needed to explore human behaviour and make a positive impact in areas such as mental health, wellbeing, education, and social services, opening the door to a wide range of rewarding career opportunities.

About this course

Discover the science behind human behaviour, thoughts and emotions while developing the knowledge and practical skills needed for a wide range of careers. You'll gain a strong understanding of the biological, cognitive, social and developmental factors that influence how people think, feel and behave.

You'll build a solid foundation in psychological theory, research methods and data analysis before progressing to specialist areas, including forensic and clinical psychology, psychological applications in professional contexts, and the psychology of everyday life. In your final year, you'll complete an independent research project, allowing you to investigate a topic of interest while developing advanced research, analytical and critical thinking skills.

Through a combination of lectures, seminars, practical workshops and research activities, you'll learn how to apply psychological principles to real-world issues. Along the way, you'll develop valuable transferable skills in communication, problem-solving, evidence-based decision-making and data interpretation, preparing you for opportunities across psychology, health and social care, education, business, research and many other sectors.

Modules

Foundation Year

- Introduction to research and writing
- Introduction to the health and social care sector
- Data skills
- Professional development in the health and social care sector

Year One

- Academic and professional skills in psychology
- Introduction to psychological research methods
- Introduction to social and developmental psychology
- Introduction to biological and cognitive psychology

Year Two

- Advanced biological and cognitive psychology
- Essential issues in psychology: history and individual differences
- Advanced social and developmental psychology
- Advanced research methods

Year Three

- Psychological applications in professional contexts
- Psychology of everyday life
- Forensic and clinical psychology
- Research project

Career routes

- Mental Health Support Worker
- Assistant Psychologist
- Wellbeing Practitioner
- Community Outreach Worker
- Youth Worker
- Family Support Worker
- Behaviour Support Practitioner

About this course

The BSc (Hons) in International Business Management offered by UGM Manchester provides a strong foundation in business management with an international perspective on contemporary, strategic concerns. You can develop your understanding of global business and management while experiencing life in the multicultural heart of Manchester.

You'll develop a thorough understanding of key topics in international business management, such as market analysis, the role of emerging markets in today's economy, and intercultural business environments and competition. We'll coach you in building confidence in navigating people, finances and projects in a cross-cultural context and developing sought-after skills such as communication, data analysis, time management, teamwork and problem-solving. We'll also emphasise the global need for responsible and sustainable entrepreneurship.

The degree is expertly structured to combine both academic and practical areas of business management, giving you the tools to navigate global companies and international markets successfully.

Modules

Foundation Year

About this course

The Computing degree offers an introduction to the core skills required by those working in the world of Information Technology and is the fundamental building block for further study and development into more specialist areas.

Students will learn key skills in programming and data-base construction and management, underpinned by a thorough understanding of cyber-security, project management, and business intelligence. The role of artificial intelligence is considered as a 'golden thread' throughout the programme, as are sustainability, ethics, and professional practice. The programme also considers enterprise and the management of information technology.

This wide-ranging set of topics gives students a firm grounding in all the core areas of computing and information technology, providing them with a secure base from which to launch their career in the IT sector, or pursue further study and development.

In a world that is ever more dependent on technology, which itself is advancing rapidly in its sophistication, the Computing degree will provide students with a skill-set that is highly valued by a wide range of employers across the public, private, and not-for-profit sectors.

Modules

Foundation Year

- Introduction to research and writing
- Computing skills
- Data skills for computing
- Professional development skills for computing

Year One

- Academic & professional skills
- Computing principles

About this course

The Business and Marketing degree offers a strong foundation in business principles while equipping you with specialised marketing expertise. You will develop a deep understanding of key areas such as digital marketing, consumer behaviour, and marketing communications, while also gaining practical experience in business finance, human resources, and legal aspects of business.

This degree is designed to blend academic knowledge with real-world application, preparing you for a dynamic career in business and marketing. You will explore essential topics like market research, strategic planning, and campaign development while enhancing critical skills such as communication, data analysis, problem-solving, and teamwork.

Our teaching is guided by current industry practices and research, ensuring you receive up-to-date knowledge that aligns with business and marketing trends. You will also have the opportunity to engage with industry professionals, gaining valuable insights into market developments and increasing your employability through career-focused assignments and tailored support.

Foundation Year

For students who wish to undertake a foundation year or do not meet the standard entry requirements for admission to one of our three-year undergraduate programmes, we offer the option of an extended, four-year programme with a foundation year for all programmes.

A foundation year prepares students for the transition to university life and studying at degree level by developing skills necessary for success which include writing, data handling, public speaking, working in teams, and self reflection. During term time, students engage in 12 hours of classroom-based activities and are expected to engage in a significant amount of guided independent study outside of the classroom. Our degrees are expertly structured to combine academic, practical and employability skills.

Key learning outcomes

- Demonstrate appropriate academic and professional communication skills
- Demonstrate core mathematical skills
- Describe the processes of career planning and development
- Apply basic research skills and identify reliable academic sources

Foundation year modules

The foundation year modules differ for each course. Please refer to the individual course page for details on specific foundation year modules.

Skills and development

- Development of academic skills set
- Improvement of Maths and English skills and knowledge
- Development of personal, professional, and employability skills

Assessment

Varied assessments take place throughout the foundation year and can take the form of a written report, online test, group project and/or presentation.

Entry Requirements

Our published entry requirements are a guide only and our decision will be based on our assessment of your overall suitability for the programme. We treat everyone as an individual, which means we will look at your whole application, including any relevant work experience and personal circumstances, as well as your educational qualifications.

Standard Degree Entry Requirements

104 UCAS Points or 48 with Foundation Year.

UGM Manchester also accepts many international qualifications, for a full list, visit our website: manchester.ugm.ac.uk/join-us/entry-requirements-for-eu-and-international-qualifications

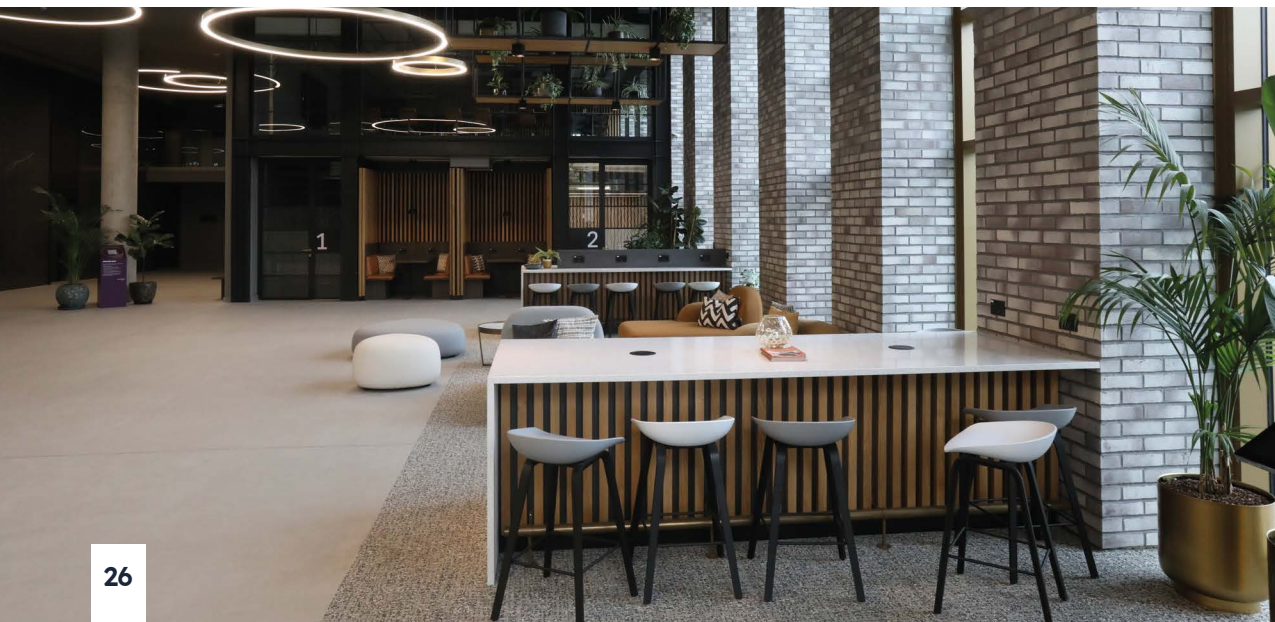

English Language Requirements

If English isn't your first language, you'll also need IELTS 6.0 with no less than 5.5 in any band (or equivalent). We also accept a range of other English language qualifications – please visit our English Language Requirements web page for more details.

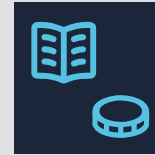

To submit an application to UGM Manchester, you can apply directly through our online admissions portal. We encourage all our applicants to apply as soon as they can.

Once your application has been submitted, our Admissions team will get back to you as soon as possible.

If you have any questions or require any help in submitting an application, please email us at admissions@manchester.ugm.ac.uk

Student Finance

Tuition Fee Loans

Tuition Fee Loans are obtained from Student Finance England and are used to pay the cost of your tuition fees.

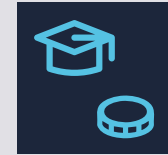

You apply for a Tuition Fee Loan through Student Finance England; please refer to the website gov.uk/student-finance to check deadlines and eligibility.

Maintenance Loans

Students eligible for the Undergraduate Loan can be awarded a loan to help with living expenses – the amount you can borrow will depend on your family's finances.

Please refer to the website gov.uk/student-finance to register-login for more details.

Our Fees

Foundation Year
£9,790 per year (UK/EU Fees)

£5,760 per year (UK/EU Fees)

*The tuition fees vary for each course. Please refer to the relevant course page for the specific fee details.

Undergraduate Degree

Your lecturers

Bethan Jones (BSc, MSc, GMBPSs, FHEA)

Before Bethan joined UGM Manchester, she was a sessional lecturer and Master's dissertation supervisor at multiple higher education institutions. Before her academic career, Bethan held various support and mental health positions, including working as a mental health support worker, a specialist mental health mentor, a SEN teaching assistant, and a social prescribing link worker. Currently, she leads several modules in the Health and Social Care programme and aids in the foundation year courses' delivery. Bethan prioritises

employability and practical experience in her teaching, assisting students with connections to the sector through volunteering and work experience. She is also a Fellow of the Higher Education Academy (FHEA).

"Having worked in the industry, I enjoy sharing authentic case studies and examples, connecting students to the knowledge we impart and cultivate. I encourage students to recognise their current skills while discovering ways to enhance and develop them further. Whether you're just beginning your journey or considering a career shift, university life can equip you for the future."

Harry Withers (BSc, MBA)

With a background as an accomplished Operations Director, Harry has spent his career optimising business performance, streamlining processes, and driving strategic growth. Now a lecturer at UGM Manchester, he brings industry expertise into the classroom, equipping students with practical skills and real-world insights. As the academic lead on employability at UGM Manchester, Harry ensures students graduate with the knowledge, confidence, and adaptability to excel. Passionate about bridging industry and education, he is committed to shaping future professionals who will drive innovation and success. Alongside his work, Harry is a PhD candidate researching knowledge

transfer in professional service firms, exploring how organisations capture, share, and apply expertise to enhance performance and innovation. His research strengthens his teaching approach, giving students a strategic understanding of knowledge as a business asset.

"I firmly believe that education is a lifelong right, accessible to everyone regardless of their stage in life, empowering all to realise their full potential. From the classroom to the boardroom, I believe every experience – whether a triumph or a challenge – offers a chance to learn, grow, and inspire."

Donglin Pei (BSc, MBA, PhD, ACCA Affiliate)

Donglin Pei is a Senior Lecturer in Accounting and Finance at UGM Manchester. He holds an MBA from Hull University and a Doctorate from Ulster University. Before joining UGM Manchester, he worked as a lecturer and senior lecturer at institutions including Sunderland University, Reading University, and Xi'an Jiaotong-Liverpool University. He has extensive experience teaching accounting and finance modules such as Financial Accounting, Management Accounting, Financial Reporting, Financial Management, Taxation, and Auditing. As a personal tutor and dissertation supervisor, he is committed to supporting students from diverse educational, age, and cultural backgrounds. Donglin's research focuses on market efficiency theory, inspiring several

publications based on his doctoral thesis. He has also successfully passed all 14 ACCA examinations, earning an ACCA affiliate membership.

"Education is a bridge that connects knowledge with opportunity, transcending backgrounds and experiences. As an educator, I am committed to empowering and helping students navigate the complexities of accounting and finance while fostering critical thinking and lifelong learning. I also encourage students to see accounting not just as numbers, but as a vital tool for ethical decision-making and financial sustainability. By bridging theory with real-world practice, I aim to equip future professionals with the skills and mindset to navigate financial complexities with integrity and confidence."

Dr. Sadaf Shariat (LLB, LLM, MBA, PGCAP, FHEA, PhD)

Dr. Sadaf Shariat is a Senior Lecturer at UGM Manchester. She holds an MBA in Corporate Social Responsibility from the University of Nottingham and a PhD from Durham University. Before joining UGM Manchester, she led seminars on Intellectual Property and Commercial Law at Durham University and later served as Director of Law, Technology, and Innovation at the University of South Wales, where she also led the Master's in International Commercial Law programme. From 2018 to 2024, Sadaf delivered modules on International Business, Competition, and Patent and IT Law for the UK Intellectual Property Office (IPO). She later became Head of the Intellectual Property course in partnership with the UK IPO, overseeing programme quality.

has presented at international conferences on CSR, intellectual property, and business technology. She has also contributed to the Palgrave Macmillan book series Studies in Governance, Leadership, and Responsibility and supervised numerous research projects, including PhD theses, focusing on AI, international business, and intellectual property law.

"Law empowers businesses to flourish within a framework of justice, transparency, accountability, and sustainability. My learner-centred, research-informed approach to teaching business law cultivates analytical thinking and fluency in practical application. It also helps students to use their knowledge for a fairer, more sustainable society and inspire them as future business leaders to balance commercial success with social and environmental responsibility."

With over 14 years of experience, she

Your career starts here

Employability Service

Our dedicated employability team supports you at every stage of your career journey, from exploring career options to securing part-time work while you study, and progressing into graduate roles or further study after you complete your course.

What we offer:

- Career guidance and progression support to help you identify the right career, course, or training pathway
- Skills and strengths development, helping you recognise the experience, values, and abilities you already have and how they align with employer expectations
- Personalised gap analysis to identify any additional skills, training, or experience needed to reach your career goals
- Confidence-building support, including business networking, online professional presence, and employability skills development

We offer practical support both in person and online, providing tailored employability services designed to help you realise your potential and succeed in your chosen career.

Services to help you land your dream role:

- 1-1 and group career coaching
- Graduate career pathways
- Postgraduate course guidance
- Employer engagement – Industry Exposure sessions with employers
- Alumni support
- 24/7 online career development resources to help you discover career options

Industry Exposure

We host employers and key professionals from a range of sectors who speak to students about their career journey, their companies, tips on how to secure a graduate job after university and occasionally they are actively recruiting, so this means you will be able to gain insight from the professionals in your chosen industry.

Online Career Resources

Our online **Career Zone** is full of great employability resources, including videos, an interview simulator, CV builder and industry reports which you can access anytime throughout your studies.

To contact the team, you can send an email to employability@manchester.ugm.ac.uk

Small print

UGM Manchester processes personal data and sensitive personal data for all applicants and enrolled students on computer and paper-based administrative systems. All such data is processed in accordance with UK Data Protection Legislation.

This information document may include links to external websites run by other organisations. UGM Manchester is not responsible for the privacy practices of these other websites, so you should read their privacy policies carefully.

Before you apply to UGM Manchester

This prospectus describes the courses and awards offered by UGM Manchester. It was prepared in January 2026, and refers to courses which will be available in September 2026, January 2027 and May 2027. UGM Manchester has taken considerable care in the preparation of this prospectus to ensure its accuracy at the time of printing, but please refer to our website which contains further information about each course, including any updates to the course itself. The online course catalogue can be viewed at our website.

UGM Manchester endeavours to take all reasonable steps to provide the education services in the manner set out in this prospectus. It does not, however, guarantee the provision of such services. In exceptional circumstances, it may be necessary to make changes to the education services due to industrial action, change in government policies, changes to funding or the law, for staffing, financial, regulatory or academic reasons, or other events beyond the control

of UGM Manchester which interfere with its ability to provide education services. UGM Manchester will take reasonable steps to minimise the resulting disruption to those services. UGM Manchester cannot be held responsible for failure/delay in performing obligations caused by things beyond its reasonable control, including, but not limited to industrial action.

Notice to potential students

Should you become a student at UGM Manchester, an offer letter will be sent to you, and this shall constitute a term of any contract between you and UGM Manchester. Any offer of a place made to you by UGM Manchester is made on the basis that, in accepting such an offer, you signify your consent and agreement to abide by the Rules, Regulations and Procedures for Students as a term of any such contract. You will also receive additional documents detailing the teaching, examination, assessment and other education services offered by UGM Manchester. In particular, you will be invited to be bound by the Rules, Regulations and Procedures for Students, which are available at: <https://www.manchester.ugm.ac.uk/student-life/policies-procedures-and-regulations>
